

FAS A4 | AISI316

SCREWS FOR FAÇADES

OPTIMISED GEOMETRY

Thanks to its flange head, partially threaded body and self-drilling tip, it is the appropriate screw for fastening façade panels (HPL, fibre cement sheets, etc.) on timber battens.

A4 | AISI316

A4 | AISI316 austenitic stainless steel for high corrosion resistance. Ideal for environments adjacent to the sea in corrosivity class C5 and for insertion on the most aggressive timbers in class T5.

COLORLED HEAD

Available in white, grey or black for perfect color uniformity with the panel. The color of the head can be customised on request.
