

# LOOP

## ANCHOR POINT FOR TIMBER AND CONCRETE SUBSTRUCTURE

### LOW PROFILE

Under-tile fastening ensures a low visual impact, ideal for installation on roofs in historic centres.

### FAST

Fast and easy installation, with just two HBS Ø8 screws.

### ADAPTABLE

Thanks to its KRAKEN support, it can also be installed on thin concrete roofs.

## TECHNICAL DATA\*

| substructure | minimum thickness | fasteners |
|--------------|-------------------|-----------|
| GL24h        | 100 x 100 mm      | HBS Ø8    |

\* The values indicated are the result of experimental tests carried out under the supervision of third parties in accordance with the standards referred to. For a correct calculation report with minimum distances according to the standard requirements, the substructure must be checked by a qualified engineer before installation.
