

CONSTRUCTION SEALING

Compressible sealing gasket for regular joints
Expanded EPDM with high chemical stability

PRACTICAL

Can be applied during construction
or during prefabrication to seal
wood-wood joints

DURABLE

The EPDM mix provides high chemical
stability and durability over time

CODES AND DIMENSIONS

code	ex code	s [mm]	B [mm]	L [m]	pcs/box
CONSTRU46	D63482	3	46	300	1

TECHNICAL SPECIFICATIONS

property	standard	value
Specific weight	DIN EN 12311/1	approx. 0.48 g/cm ³
Compression deformation 22h: +23 °C	EN ISO 815	< 25 %
Compression deformation 22h: +40 °C	EN ISO 815	< 35 %
Temperature resistance	-	-35 / +100 °C
Storage temperature	-	+5 / +25 °C
Solvents	-	NO
VOC emissions	-	< 0.02 % (class A+)

NOTE: Store the product in a dry, covered location
